

EMERGENCE IN ACTION @ DON DON'S

JULIAN FAELLI - S3108056

Generations of RMIT students have had to eat, where do they go - Don Don's.

The number of people Don Don's serves of a lunchtime is staggering. Something more than good stock management is going on. It seems to be a truly remarkable self organizing emergent system.

```
def vars  
don  
hunger  
speed  
heading
```

```
init  
seed r agents  
posit rand  
hunger = rand
```

```
globals  
hunger + 1  
each cycle
```

```
func dondon  
don = rand  
set hunger = 0  
  
if don = katsu curry  
speed = 8  
  
else speed = 6
```

```
func collide  
radius 5u poisoned  
  
if don = 1  
die  
  
else hunger = + 5
```
